### WELCOME

Restore, refresh and revitalize your office or home with K-tech's professional cleaning and restoration team. K-tech provides superior integrated cleaning solutions for residential buildings and commercial facilities. We specialize in fire and water restoration, hazardous material removal and mitigation, air duct cleaning and purification, full-service facility cleaning programs and even offer a complete line of janitorial supplies and equipment.

For over three decades, K-tech has maintained a mission to serve central and northern Wisconsin communities with the latest technologies in commercial and home cleaning and restoration solutions. At the forefront of this philosophy is a commitment to protecting the natural environment and understanding health sensitivities of home and building occupants. We always embrace green cleaning solutions and techniques, and promote products that enhance indoor air quality within the facilities we clean. When you select K-tech, you're in the hands of a member of an elite group of cleaning companies that carries the highest certification in the cleaning industry: the Cleaning Industry Management Standard—Green Building with Honors (CIMS-GB).

K-tech's highly skilled cleaning professionals are available seven days a week to serve your facility or home cleaning and sanitation needs. Our team responds to all emergency service calls within one hour of notification, and our cleaning services include a satisfaction guarantee.
